Bestede tijd: 00:15:59

IP-adres: 95.208.248.115

PAGINA 2

V1: What is your first and last name?

Claire Brussee

V2: Which study programme at the Faculty of Sports and Nutrition are you following?

Nutrition & Dietetics

V3: Where (country and city) are you doing your internship?

Germany, Stuttgart

PAGINA 3

V4: How much do you agree or disagree with the following statements?

The internship abroad has been a positive experience for me

Strongly disagree

The internship abroad taught me to deal better with psychological stress and anxiety

Mildly disagree

The internship abroad made me more aware of other people's perspectives

Strongly disagree

The internship abroad period taught me to communicate more effectively.

Mildly disagree

PAGINA 4

V5: Did the content and the level of the internship correspond with your studies at the HvA?

Yes,

Please elaborate on your answer
I had to apply what I knew about almost all the diseases we learned about, as well as interview skills.

V6: Were you satisfied with the supervision at your internship company/organisation?

Yes

PAGINA 5

V7: Please specify the working language and the language of the country:

	Language
Working language	German
Language of the country	German

V8: What is your conclusion regarding your language abilities?

Working language - reading	Improved a lot
Working language - writing	Improved a lot
Working language - speaking	Improved a lot
Working language - listening	Improved a lot
Working language - overall	Improved a lot
Language of the country - reading	Improved a lot
Language of the country - writing	Improved a lot
Language of the country - speaking	Improved a lot
Language of the country - listening	Improved a lot
Language of the country - overall	Improved a lot

PAGINA 6

V9: Please describe two cultural differences you experienced during your stay abroad.Experience 1:

In Germany there is a stronger hierarchy in the work field. Doctors are super important and have the final word. They diagnose the patients, which dieticians are not really allowed to do.

V10: Experience 2:

In Germany they eat a lot of cake. In Holland I was used to eating 1 or maybe 2 pieces of cake on a birthday or special occasion. In Germany it's normal to eat cake almost everyday and then take 4 or 5 pieces per person.

PAGINA 7

V11: How did you find accommodation? In the private sector

V12: How much did you pay for this accommodation on a monthly basis? 400-600 euros

V13: Would you recommend this accommodation to other students? Maybe

PAGINA 8

V14: What are your tips for other students going here (e.g. housing, transport, cost of living, useful contacts etc.)?

Make sure that you completely speak the language, so you can say and ask everything you want.
Get a 6 months ticket for all the public transport. For this you need to bring your contract of the internship.
Take initiative in what you want to work on and don't be afraid to ask for help.

V15: Write a short statement about the internship to inform other students.

I did my internship with a dietician who was working alone. That is great for supervision and your learning experience, but it can mean that you don't get paid, because there is simply not enough money in the company.
My internship varied a lot, so I got to work on a lot of different things. That is very nice for your overall experience. I liked my internship a lot and I learned a lot which I can apply in the work field after I graduate.

PAGINA 9

V16: If you could do it all over again, what would you do differently?

I would take more initiative.

PAGINA 10

V17: Do you have any other remarks?
