If the student has not made sufficient progress, the degree programme will determine the reason for this by holding a study progress interview. It is possible to forego notification of the IND owing to personal circumstances only once per qualifying period, unless new personal circumstances have arisen.<sup>2</sup>

## Chapter 3 Admission to the degree programme

### Article 3.1 Admission requirements

2. Any further requirements to the HAVO or VWO diploma with regard to the subject cluster and/or supplementary subjects that are applied at national level on the basis of the Higher Education Application and Admission Regulations (RATHO) will also apply to the Bachelor's admission procedure. Appendix 1 to this Charter sets out further entry level requirements for each AUAS degree programme.
3. Prospective students with a senior general secondary education (HAVO) or pre-university education diploma as referred to in paragraph 1 that does not meet further entry level requirements in terms of the subject or subjects referred to in paragraph 2, will be deemed admissible if they can demonstrate their compliance with equivalent requirements by conducting a research project. These requirements must be satisfied before the first year of registration commences. The research project referred to in this paragraph may consist of a test demonstrating adequate knowledge of the deficient subject or subjects. The degree programme must keep a record of the evaluation referred to in this paragraph and the corresponding results.
4. In addition to the requirements set out in paragraphs 1 and 2, some degree programmes are subject to an additional admission requirement as established in RATHO and applied at national level. These requirements are described in appendix 1.
5. In supplement to the previous paragraphs, admission to the degree programme is also subject to: the rules for timely registration, and – where applicable – rules for the mandatory study check or rules for enrolment quotas and selection.
6. Prospective students with a diploma issued either in the Netherlands or abroad that is deemed at least equivalent to a diploma as referred to in paragraph 1 pursuant to a ministerial decree will be deemed admissible providing, where applicable, they also meet requirements with regard to the subject cluster and, in the case of a foreign diploma, have demonstrated their command of the Dutch language at a level that ensures fruitful participation in the education process in the view of the Examination Board, in accordance with Article 3.7 of this Charter. The stipulations of the previous sentence with regard to the Dutch language do not apply if the party involved is seeking to take part in an English-language programme and can demonstrate – by means of a statement issued by Nuffic – their compliance with the requirements for English prior education laid out in Article 4.3 of the Code of Conduct for International Students. If the subject requirements have not been met, the provisions of paragraph 3 apply equally.
7. Those to have been issued a Bachelor's or Master's degree, and those in possession of a certificates demonstrating completion of a propaedeutic year examination at a higher education institution, are exempted from the educational entry requirements referred to in the first paragraph. However, the party involved must meet the requirements set out in the 2nd and 4th paragraph, if applicable.

### Article 3.1a Admission to a 3-year track

1. If the programme offers a 3-year track for prospective students with a pre-university (VWO) diploma, this track will be subject to the same entry requirements and/or supplementary entry requirements as the 4-year Bachelor's programme.
2. In supplement to the provisions of the first paragraph, admission to the 3-year VWO track is also open to anyone with a diploma that is classed as being at least equivalent to a diploma as referred to in the aforementioned paragraph by ministerial regulation, and – in accordance with the subsequent paragraph – anyone with a diploma (and the relevant average final mark) as referred to in the next paragraph.

3. Prospective students with a senior general secondary education (HAVO) diploma will be deemed admissible to the track as referred to in paragraph 1 if they have an average final mark of 8 or higher and their diploma meets any further or additional educational entry requirements.

**Article 3.1b Admission to a fast-track programme**

1. If the degree programme offers a fast-track programme, the relevant admission requirements will be listed AUAS website. The Dean will decide on admission to the programme.
2. At the end of each academic year in which the student has taken part in a fast-track programme as referred to in paragraph 1, the Dean may decide that the student cannot continue the programme. This will be the case if, during the main phase of the programme, the student fails to meet the requirements relating to the continuation of studies applicable to the fast-track programme. In the event the student may not continue the fast-track programme, he/she may continue the regular four-year Bachelor's programme track. The study advice regulations will remain applicable to any students that fail to successfully complete their first year.

**Article 3.2 Preparatory education abroad**

1. In cases where a person who has undergone preparatory education abroad – other than a non-Dutch diploma as referred to in paragraph 3.1, paragraph 6 – applies for admission to the degree programme, the Diploma Assessment Office of the AUAS Student Affairs Department will establish the equivalent level of Dutch preparatory education based on information provided by Nuffic and consequently advise the Dean. Based on this advice, the Dean will determine if the candidate can be admitted to the degree programme. If a preparatory year is required, this will be stated in the course catalogue and AUAS website.
2. Preparatory education abroad is considered equivalent to that referred to in Article 3.1, paragraphs 1 and 2 if the preparatory education in question grants admission to academic higher education or higher education in a country that has ratified the Convention on the Recognition of Qualifications concerning Higher Education in the European Region<sup>4</sup>. The provisions of the previous sentence do not apply if there is a significant difference between the general requirements in respect of admission to higher education in the territory of the country in question and the requirements imposed in Article 3.1 paragraphs 1 and 2.
3. Prospective students with a diploma that was not issued in the Netherlands and that is classed pursuant to paragraphs 1 and 2 as being at least equivalent to a diploma as referred to in Article 3.1, paragraph 1, are eligible for admission provided that, where applicable, the subject requirements and the provisions of Article 3.1, paragraph 3, have been met and the person concerned additionally demonstrates to the Examination Board's satisfaction that he or she has a sufficient command of the Dutch language to successfully take part in the degree programme in accordance with the requirements in Article 3.7 of this Charter. If the subject requirements have not been met, the provisions of Article 3.1, paragraph 3 apply equally.

**Article 3.3 Requirements concerning employment of part-time students**

1. Part-time programmes may require that students seeking to enrol carry out specific activities over the course of the degree programme provided these activities have been earmarked as course units in the Teaching and Examination Regulations. These requirements are featured in the course catalogue and AUAS website.

---

<sup>4</sup> Treaty Series, 2002, no. 137.

2. Students that no longer meet the requirements for suitable activities may no longer take part in examinations on course units that include these activities. In the temporary absence of comparable activities, students will be offered a suitable education programme or referred to another programme variant where possible.
3. The Dean is authorised to ask the student to submit documentary evidence of compliance with the provisions of paragraph 1 each year. The student is obliged to provide the information requested.

#### **Article 3.4 Admission to dual programmes**

1. Admission to dual programmes is subject to specific requirements on professional activity. These requirements are featured in the course catalogue and AUAS website<sup>4</sup>. Admission to a dual programme will require an agreement concluded on behalf of the institution by the degree programme, student and business or organisation where the professional activities are to take place.
2. As a minimum, the agreement referred to in paragraph 1 will contain provisions regarding:
  - a. the term of the agreement and the duration of the period or periods of professional activity;
  - b. supervision of the student;
  - c. the qualities in terms of knowledge, insight and skills that a student must have acquired on completion of the degree programme and that must be gained during the period of professional activity<sup>5</sup>, as well as the corresponding assessments, and;
  - d. when and how the agreement may be terminated early.
3. Any person who wishes to be admitted to a dual degree programme must hold an agreement as referred to in paragraph 1 at the time of admission. If the requirement set out in the previous sentence is not met, the person in question will be deemed ineligible to take part in the dual study programme. Consequently, the Dean may decide to refuse the student access to the dual degree programme. The student will receive written notification of any decision as referred to in the previous sentence.
4. If an agreement as referred to in paragraph 2 is terminated prematurely, the student will be given up to a further six months to enter into a new agreement as referred to in paragraph 2. If this proves impossible, the student will be regarded as no longer eligible to take part in the dual degree programme. Consequently, the Dean may decide to refuse the student access to this programme. The student will receive written notification of any decision as referred to in the previous sentence.

#### **Article 3.5 Entrance Examination**

1. Persons aged 21 or over who do not satisfy the preparatory education requirements referred to in Article 3.1 may, in accordance with paragraph 7.29 of the WHW, be exempted from the preparatory education requirements subsequent to completing an entrance examination. This exemption does not apply to the requirements for a 3-year track, special track or fast-track programme.
2. Entrance examinations can only be administered to persons who will have reached the age of 21 at the time of their first year of enrolment on the degree programme.
3. Prospective students that hold a foreign diploma but are unable to provide this document may submit a request to deviate from this age requirement to the Entrance Examination Quality Committee.
4. The purpose of the entrance examination is to ascertain whether the candidate is able to participate in the study programme and has a sufficient command of the language in which it is taught to complete the programme successfully.
5. The AUAS website explains which entrance examination components must be completed with a passing mark in order to be eligible for admission.

---

<sup>5</sup> This means that requirements with regard to the workplace are included in the agreement.

6. The entrance examination quality committee, charged with supervising entrance examinations, will issue a written statement confirming admissibility to all prospective students that successfully complete the entrance examination. 1. The Examination Appeals Board issues rulings on appeals against the following types of decisions, on the basis of Section 7.61 of the WHW and this Charter:
  - a. decisions as referred to in Section 7.8b, paragraph 3 and 5 (binding study advice), and Section 7.9, paragraph 1 (binding referrals);
  - b. decisions concerning ascertainment of the total number of credits obtained as referred to in Section 7.9a of the WHW, and decisions on successful completion of the final examination as referred to in Section 7.9d of the WHW;
  - c. decisions concerning the scope of the exemption, as referred to in Section 7.31a, paragraph 3 of the WHW (exemptions on the basis of equivalent vocational training);
  - d. decisions, other than those of a general nature, taken on the basis of provisions set out in or pursuant to title 2 of chapter 7 of the WHW, concerning admission to examinations;
  - e. decisions taken on the basis of additional research, as referred to in article 7.25 paragraph 5 and article 7.28 paragraph 4 of the WHW;
  - f. decisions by the Examination Board or examiners;
  - g. decisions by committees as referred to in Section 7.29 (1) of the WHW (exemptions on the basis of entrance examinations);
  - h. decisions taken on the basis of article 7.30b of the WHW, concerning admission to the degree programmes referred to in this Section (Master's degree programmes).
2. The Disputes Advisory Committee will issue rulings pursuant to Section 7.63a of the WHW on objections against decisions on the basis of provisions set out in or pursuant to Chapter 7 of the WHW in all cases other than those referred to in paragraph 1 of this Article and Section 7.61 of the WHW, including decisions taken on the basis of chapters 3 through 5 of the Students' Charter.
3. For the purposes of applying this Charter, the term decision should also be taken to include:
  - a. written refusal to take a decision, and
  - b. failure to take a timely decision. If a decision is not made within the legally required period, or – in the absence of such a time limit – a period of 8 weeks, this will be regarded as failure to take a timely decision.
4. Decisions of a general nature are not open to appeal or objection.

### 3. Examination Appeals Board and Disputes Advisory Committee procedures

#### Article 10.5 Lodging an appeal or objection

1. Appeals or objections must be submitted to the Objections, Appeals and Complaints Office by means of the digital form made available by the AUAS, within 6 weeks after the decision has been communicated to the party concerned. If the above period is exceeded due to circumstances not attributable to the party concerned, manifest inadmissibility will not be applied on those grounds.
2. The objection or appeal must contain:
  - a. the name and address of the person lodging the objection and degree programme in question;
  - b. an email address for all correspondence on the objection or appeal;
  - c. the name of the Examination Board, examiner or other body to have taken the decision being appealed or objected against, and the subject of this decision;
  - d. a copy of the decision against which the appeal or objection was lodged, or – if the appeal concerns refusal to take a decision – a copy of the request to this end;
  - e. the grounds for the appeal;
  - f. should the person making the appeal be acting on someone else's behalf, a written authorisation to this effect along with the authorised person's name and address.
3. Receipt of the notice of objection or appeal will be confirmed.
4. The Examination Appeals Board or Disputes Advisory Committee will inform the party lodging the appeal or objection if any information is missing, and invite them to provide this information within a set period. If the party lodging the appeal or objection fails to provide this information within the specified period despite having been reminded to do so and informed that the dossier will be closed if no response is forthcoming, the objection or appeal will be deemed revoked and the dossier will be closed.
5. The making of an appeal has no provisional effect.

#### Article 10.6 Amicable settlement and statement of defence

1. The party lodging the appeal or objection will receive a notification inviting them to discuss a potential amicable settlement with the party or parties involved before the appeal or objection is handled.
2. The defendant as referred to in the first paragraph will reply within a period of 3 weeks, describing the outcome of the consultations referred to in paragraph 1. If it has not been possible to reach an amicable solution, the defendant will provide a statement of opposition along with this notification, after which the Examination Appeals Board will process the notice of appeal or the Disputes Advisory Committee will process the notice of objection.
3. A copy of the statement of opposition will immediately be sent to the party lodging the appeal or objection.

#### Article 10.7 Simplified and accelerated procedure

1. The Examination Appeals Board or Disputes Advisory Committee will immediately reject the appeal or objection if the defendant indicates that no amicable settlement was possible, and the Board or Committee deems itself to be manifestly incompetent or deems the objection or appeal unfounded, or deems further handling of the objection or appeal unnecessary, among other things, because:
  - a. the objection or appeal is manifestly unfounded;
  - b. the person submitting the objection or appeal is not an interested party;
  - c. the appeal has been lodged after the deadline without good reason;
  - d. the decision against which the objection or appeal has been made clearly cannot be maintained, or;
  - e. the decision against which the appeal or objection has been lodged has been revoked or amended by the defendant, thus meeting the objections of the party lodging the appeal or objection.
  - f. reject the appeal or objection is directed to a decision to which appeal or objection is not possible.
2. The Examination Appeals Board or the Disputes Advisory Committee can decide to accelerate the procedure on request of one of the parties if they find there is enough reason to do so.

**Article 10.8 Requesting a provisional remedy from the Examination Appeals Board**

1. In cases in which the interests of the person lodging the appeal require a provisionally enforceable decision, the person may submit an application to the chair of the Examination Appeals Board requesting a provisional remedy by means of the digital form used to lodge the appeal, pending the decision on the principal case.
2. The Examination Board will be invited to indicate whether it agrees to this provisional remedy or submit a statement of defence within five working days at a latest.
3. If a statement of defence is submitted, the chair of the Examination Appeals Board will decide whether to allow or reject the provisional remedy on the basis of the relevant documentation. The decision will be sent to the parties in digital format.

**Article 10.9 Challenge or exemption**

1. With regard to the hearing, any of the current members of the Examination Appeals Board or Disputes Advisory Committee may be challenged by one or more of the parties involved in the appeal based on facts or circumstances that might interfere with that Examination Appeals Board member reaching an independent judgement. Any member of the Examination Appeals Board or Disputes Advisory Committee may claim exemption based on such facts or circumstances.
2. The other current members of the Examination Appeals Board or Disputes Advisory Committee will decide as soon as possible whether the challenge or exemption is acceptable. If the votes are equally divided, the request will be permitted.

**Article 10.10 Determination of the location and time for examination**

1. Upon having received the statement of defence, the Examination Appeals Board or Disputes Advisory Committee will determine an appropriate date and location for the examination. The parties involved will receive digital notification on a timely basis.
2. The Examination Appeals Board or Disputes Advisory Committee may independently make the necessary enquiries and request any information deemed necessary in order to process the appeal. For example, witnesses and experts may be summoned and heard.
3. The parties may submit further documentation up until five days before the start of the hearing.

**Article 10.11 Assistance**

1. The parties may be represented by or enlist the assistance of an authorised representative at the hearing. In addition, they may introduce witnesses and experts at the hearing on the understanding that they are to make the names of such persons known in writing to the Examination Appeals Board and to the other party not later than five days before the oral examination of the appeal. The Examination Appeals Board or Disputes Advisory Committee will decide whether or not to hear the witnesses.
2. Representatives must submit a written authorisation upon request.

**Article 10.12 Hearing**

1. Appeals and objections are examined at public hearings of the Examination Appeals Board or Disputes Advisory Committee. In special cases, the Examination Appeals Board or Disputes Advisory Committee may reach a substantiated decision whereby an appeal or objection will be examined behind closed doors, either in full or in part.
2. If a party or their representative fails to appear at the hearing despite having been adequately summoned in the opinion of the chairperson, the chairperson may decide to conduct a hearing on the objection or appeal in the party's absence.
3. The defendant will provide the Examination Appeals Board or Disputes Advisory Committee with any information needed to fulfil their duties:
4. The Examination Appeals Board or Disputes Advisory Committee may prolong an appeal or objection after the hearing has ended, and will then ensure that both parties are given a fair hearing.

#### 4. Outcome of Examination Appeals Board and Disputes Advisory Committee procedures

##### **Article 10.13 Examination Appeals Board decisions**

1. The Examination Appeals Board will reach a decision within ten weeks, starting on the day upon which the deadline for appeals lapses.
2. Should the Examination Appeals Board consider an appeal well-founded, it will annul the decision in whole or in part. The Examination Appeals Board is not authorised to reach a new decision in lieu of a decision that has been wholly or partially annulled. The Examination Appeals Board may decide that the test, the examination, the entrance examination, the supplementary enquiry or any component thereof should be administered afresh on conditions to be set by the Examination Appeals Board, or that the case will be reconsidered or, if the decision was refused, that a decision should still be taken on the case. The Examination Board whose decision was set aside may provide for the case anew as far as is required and with due observance of the decision of the Examination Appeals Board. The Examination Appeals Board may set a time limit for this.
3. The Examination Appeals Board is to send its decision, dated and stating reasons, to the relevant parties.

##### **Article 10.14 Recommendation by the Disputes Advisory Committee and decision by the Executive Board**

1. The Disputes Advisory Committee will issue its advice on the notice of objection to the Executive Board within ten weeks of the submission of the notice of objection. This period of time may be extended by the Disputes Advisory Committee by not more than four weeks. The parties involved will be notified of this on a timely basis.
2. The Executive Board will take a decision on the objection within two weeks of having received advice from the Disputes Advisory Committee.
3. The Executive Board will send the decision together with the Disputes Advisory Committee's advice to the person lodging the objection in digital format.

##### **Article 10.15 Lodging an appeal with the Appeals Tribunal for Higher Education**

1. The AUAS is affiliated with the Appeals Tribunal for Higher Education in The Hague.
2. The Appeals Tribunal for Higher Education will rule on any appeals lodged against decisions by the Examination Appeals Board as referred to in Article 10.13 or decisions by the Executive Board, as referred to in Article 10.14. If such an appeal has been made it is possible to apply for a provisional provision.
3. The Appeals Tribunal for Higher Education will rule on an appeal against the refusal to grant a provisional provision by the chairman of the Examination Appeals Board. In case of an objection at the Disputes Advisory Committee<sup>4</sup>, students can only apply for a provisional provision at the Appeals Tribunal for Higher Education.
4. Appeals must be filed within 6 weeks after the day upon which the decision was communicated in digital format.

---

<sup>4</sup> The Disputes Advisory Committee is not competent to give a provisional provision.

## Chapter 11 General complaints procedure

### Article 11.1 Submission of a complaint

1. Complaints, stating reasons, are to be submitted to the Objections, Appeals and Complaints Office. A course member can also file a complaint, all articles in this chapter apply equally unless other arrangements how to deal with complaints have been made by the programme.
2. If a complaint has been submitted to an office (a body of the AUAS) other than the Objections, Appeals and Complaints Office, the date of receipt will be noted and it will then be forwarded, together with the supporting documents, to the Objections, Appeals and Complaints Office.
3. Complaints should be signed and contain the following:
  - a. the name and address of the person lodging the complaint and, if that person is an enrolled student, the name of their degree programme and their student ID number;
  - b. a description of the act by an AUAS body or staff member or the act of a fellow student against which the person is lodging the complaint,
  - c. the grounds for the complaint;
  - d. should the person making the complaint be acting on someone else's behalf, a written authorisation to this effect.
4. Receipt of the complaint will be confirmed by email.
5. In the event the person lodging the complaint has not provided the information within that period, the complaint will not be processed.

### Article 11.2 Handling of complaints

1. Complaints will be passed on to the relevant organisational unit to be dealt with. They will not be dealt with by the person who was involved in the action to which the complaint relates.
2. A copy of the complaint as well as copies of any documents accompanying the complaint will be sent to the persons to whose conduct the complaint relates.
3. The time limit for handling a complaint is six weeks.
4. The complainant and the accused will be given the opportunity to be heard unless the complaint has been declared manifestly unfounded.
5. The person handling the complaint will inform the complainant by email of the findings of the investigation into the complaint and the opinion on the complaint, stating reasons, as well as any conclusions that may be attached to the opinion.
6. No objection or appeal is possible against the decision on a complaint with the exception of the right of every person to appeal to a civil court. The provisions of the previous sentence do not apply if the handling of the complaint gives rise to a new decision against which an objection or appeal may be made.

### Article 11.3 Cases in which complaints will not be handled

1. Complaints will not be handled if they concern an action:
  - a. that was already the subject of a complaint and that complaint has been handled;
  - b. that took place more than a year before the complaint was submitted;
  - c. against which the complainant could have lodged an objection;
  - d. against which the complainant can lodge an appeal, unless the action entails failure to take a timely decision or if an appeal could have been lodged;
  - e. that through the institution of proceedings is or was subject to the opinion of a judicial authority other than the administrative court;
  - f. in the event of a criminal investigation;
  - g. of which it has been established that the interest of the complainant or the seriousness of the action is manifestly insufficient.

**Article 11.4 Code of Conduct for International Students in Dutch Higher Education**

**Chapter 12 Concluding provisions**

**Article 12.1 Unforeseen circumstances**

The Executive Board will decide in all cases not provided for in this Charter or by law.

**Article 12.2 Entry into force**

This Charter enters into force on 1 September 2019 and replaces the Students' Charter of the Amsterdam University of Applied Sciences adopted on 22 May 2018.

**Article 12.3 Official title**

## APPENDIX 2: AUAS Regulations on the Enrolment Quota and Selection Procedure for the 2018-2019 Academic Year

Taking into account:

- Sections 7.53 and 7.56 of the Dutch Higher Education and Research Act;
- the Regulations on Enrolment in and Admission to Higher Education (*Regeling Aanmelding en Toelating Hoger Onderwijs*) of the Ministry of Education, Culture and Science;
- the amendment to the aforementioned Regulations of 8 November 2015, no. 759279, amending the Regulations on Enrolment in and Admission to Higher Education in connection with the abolition of the draw; and
- the AUAS Enrolment Quota and Selection Policy, adopted on 6 April 2016;

the following regulations have been drawn up in which rules are laid down under which prospective students, with effect from the 2017-2018 academic year, can be placed in a degree programme with an enrolment quota via selection.

### Article 1:

#### Definitions

- a. *prospective student*: someone who has applied for a degree programme at the Amsterdam University of Applied Sciences (AUAS) and who is not enrolled in the relevant programme at the AUAS at the time.
- b. *restricted intake programme*: a degree programme for which a limited number of students can be enrolled under Sections 7.53 and 7.56 of the Dutch Higher Education and Research Act.
- c. *selection*: the procedure by which prospective students who have applied for a restricted intake programme are selected.
- d. *study check*: the activity the AUAS offers prospective students for a Bachelor's degree, not being a restricted intake programme, with the aim of providing a recommendation regarding the choice of degree programme.
- e. *ranking*: a unique number assigned by the AUAS to a prospective student who has gone through selection, showing how the prospective student has been assessed in relation to the other participants in the selection. The prospective student receives the ranking via Studielink.
- f. *confirmation of placement*: the placement assigned to the prospective student receives via Studielink when the ranking that the AUAS has assigned to them lies within the education capacity of the restricted intake programme. The prospective student must accept this placement via Studielink within 14 days of receipt.
- g. *enrolment*: a prospective student who meets the statutory educational entry requirements and the conditions of admission stated in the Teaching and Examination Regulations may be enrolled as a student at the AUAS. The Central Student Administration (CSA) is responsible for implementing the enrolment in accordance with the Students' Charter and decides whether a prospective student is enrolled as a student for the degree programme for which the prospective student has applied.

### Article 2:

*Apply no later than 15 January before the start of the academic year*

1. Prospective students seeking to take part in the selection for a restricted intake programme from 1 September must register via Studielink by 15 January of that calendar year.
2. A prospective student who applies for a restricted intake programme at the AUAS via Studielink and who has previously twice made a selection attempt for the same programme will receive the message via Studielink that they are unable to apply for the programme.
3. An application does not count as a selection attempt if the prospective student has withdrawn it via Studielink before 15 January.
4. Between 15 January and 31 August, a prospective student can submit a request to the institution to cancel their selection attempt if they do not succeed in obtaining the diploma or certificate required for admission.
5. A prospective student who can demonstrate that force majeure has prevented them from applying via Studielink by 15 January may submit a substantiated request via the CSA in

order to still receive an invitation to take part in the selection for the restricted intake programme concerned.

**Article 3:**

*Selection*

1. The selection takes place in accordance with the policy adopted by AUAS. The AUAS policy has been published.
2. Prospective students who have a disability must make this known to the degree programme prior to the start of the selection procedure, so that suitable provisions can be arranged if possible.
3. Where the number of applications is less than the number of places available, no selection will take place. However, in accordance with the adopted AUAS policy, the prospective student will be obliged to take part in the study check. Chapter 3 of the Students' Charter applies in this case.

**Article 4:**

*Results of selection, ranking numbers and placement offer*

1. The AUAS will inform the prospective student of the results they obtained in the selection by no later than 15 April.
2. The prospective student will receive the ranking assigned to them by the AUAS on the basis of the results they achieved on 15 April via Studielink.
3. From 15 April, the prospective student will receive a placement offer via Studielink if the ranking assigned to them lies within the capacity of the restricted intake programme.
4. The placement offer will be cancelled if the prospective student to whom this placement was offered does not accept via Studielink within 14 days of receipt.
5. If a place becomes available because a placement has not been accepted in time, a placement will be given to the prospective student with the next ranking to whom no placement has yet been given via Studielink; paragraph 4 then applies.
6. The AUAS will offer placements via Studielink until 15 August.

**Article 5:**

*Educational entry requirements and detailed educational entry requirements*

1. Prospective students who might potentially be admitted to a restricted intake programme on the basis of a placement offer on 1 September of that year must demonstrate by no later than 31 August that they meet the educational entry requirements and detailed educational entry requirements that are recorded in the Teaching and Examination Regulations that apply for the degree programme concerned.

**Article 6:**

*Objections*

1. The prospective student has six weeks from receipt of the decision in question in which to submit a notice of objection supported by reasons to the Executive Board, in accordance with Chapter 12 of the Students' Charter.
2. The Disputes Advisory Committee will issue an opinion to the Executive Board about objections before the Executive Board takes a decision on an objection. Objections may be lodged against decisions regarding:
  - a. refusal to accept the enrolment application for a selection programme from the prospective student after 15 January;
  - b. the ranking assigned;
  - c. refusal to offer the prospective student a placement;
  - d. refusal to cancel a selection attempt of the prospective student;
  - e. an invalid reason for absence on selection day;
  - f. a rejected enrolment application.

*Adoption and effective date*

These Regulations will take effect on 1 October 2018.
